Our American Government
Government in America

The images in this textbook are in grayscale. American Government 2e is designed to meet the scope and sequence requirements of the single-semester American Government course. This title includes innovative features designed to enhance student learning, including Insider Perspective features and a Get Connected module that shows students how they can get engaged in the political process. The book provides an important opportunity for students to learn the core concepts of American Government and understand how those concepts apply to their lives and the world around them.

Hailed as a stellar educational resource since 1917, Magruder's American Government is updated annually to incorporate the most current, most authoritative American Government content, and meet the changing needs of today's high school students and teachers. Magruder's clear, engaging narrative is enhanced with the Essential Questions, numerous primary sources, political cartoons, charts, graphs, photos and interactive online activities, to make the subject of American Government accessible and motivating to students of all abilities. The Pearson Advantage
Respected, relevant, and reliable Teacher's most trusted and authoritative program in the nation! Magruder's is recognized for its clear, well-written narrative using a variety of methods to make content accessible to all students. Written around Grant Wiggin's Essential Questions In each Unit and Chapter, students explore Essential Questions, with additional activities in the Essential Question Journal. New features to make content easier to understand How Government Works feature, academic vocabulary defined at the point of use, multiple graphic organizers, audio tours accompanying complex graphics. Quick Study Guides, and text having a fresh, magazine-inspired design, demystify difficult American Government concepts. Student Resources: American Government Online Student Center
Students connect to 21st Century learning with rich digital assets that include two Online Student Editions, downloadable audio and video resources, and interactive assessments. The American Government Essential Question Journal Print consumable that accompanies the Magruder's American Government Textbook for students to answer the Essential Questions in graphic, chart, question and essay formats. American Government Essential Question Video on DVD Students identify the Essential Questions for American Government

Page 1/6
Examines minority governments to show they are not exceptional or unstable.

The book provides an important opportunity for students to learn the core concepts of American Government and understand how those concepts apply to their lives and the world around them.

The Committee on House Administration is pleased to present this revised book on our United States Government. This publication continues to be a popular introductory guide for American citizens and those of other countries who seek a greater understanding of our heritage of democracy. The question-and-answer format covers a broad range of topics dealing with the legislative, executive, and judicial branches of our Government as well as the electoral process and the role of political parties.--Foreword.

The 2000 Georgetown University Round Table on Languages and Linguistics brought together distinguished linguists from around the globe to discuss applications of linguistics to important and intriguing real-world issues within the professions. With topics as wide-ranging as coherence in operating room communication, involvement strategies in news analysis roundtable discussions, and jury understanding of witness deception, this resulting volume of selected papers provides both experts and novices with myriad insights into the excitement of cross-disciplinary language analysis. Readers will find—in the words of one contributor—that in such cross-pollination of ideas, "there's tremendous hope, there's tremendous power and the power to transform."

Governance in the Middle East is topic of interest to scholars, activists and policy makers. The currently proposed book is intended to present the first comprehensive framework of the question of governance in the Middle East in its various forms and manifestations: political, economic, and government performance. This study will supply the context that is missing in the existing literature on, perhaps, the last bastion of authoritarianism in the world. Proposed Contents This book will be structured into two parts: Part I (Chapters 1-11) provides some theoretical background and analyzes the patterns and challenges of governance in the Middle East, providing some global context; Part II (12-Conclusion) will examine specific cases in selected countries and regions in the Middle East. Part I: Theory and Context Chapter 1 will be an introduction describing the main aspects of the book and highlighting the main points made by the contributors. Chapter 2 will present the theoretical dimensions of governance and review the "state of the discipline" and the latest trends in the literature on governance. The author of this chapter will be an authority in the subject of governance, but does not have to be necessarily a Middle East scholar. Chapter 3 will examine the general political trends in the Middle East and provide a historical background: nation-state formation, colonial and postcolonial experiences in the Middle East and the nature of the Middle Eastern political environment at the present time. Chapter 4 will look into the economic aspects of governance in the Middle East and contextualize the economic challenges and deficiencies affecting the region. Chapter 5 will examine the areas of success and failure in government performance in the region and the aspects of human development. Chapter 6 will look into the role of religion in shaping the governance in the Middle East. After all, most Middle Eastern governments declare Islam as the State religion, while a few consider Islam the source of governance and legislation (e.g. Saudi Arabia and Iran). Chapter 7 will shed light on the sectarian division among Muslims (Shi‘a vs. Sunnis) and the significance of this division for the governance, particularly in countries where the ruling groups belong to a different sect than the governed, such as Bahrain, Saudi, Kuwait and Lebanon. Chapter 8 will examine relation between the state of governance in the Middle East and the progress of human rights, or lack thereof. The Middle East
remains one of the most troubling regions on human rights and the respect for human dignity. All of the region’s governments are heavily implicated in very serious violations of the most basic in human rights. Chapter 9 will focus on the status of women in the Middle East and the governmental performance in the region in relevance to women rights and status. The recent years have witnessed many positive changes in this regard, but there remains a lot of work to be done, which is going to be outlined in this chapter. Chapter 10 will look into the role of oil and other natural sources in shaping the economic and political performance of Middle Eastern governments. Also, it will shed light on the various ways these governments distribute the revenues (rents) from these resources and how they use them, or don’t, in the development of their countries or, in most cases, on the military and state oppressive machine. Chapter 11 will examine the role of international organizations and trade agreements on the performance of governments and whether or not such factors influence or shape governance in the region. It is well-known that Turkey has changed many of its laws and social policies in response to the demands of EU members and in hopes of being admitted into the EU. The chapter will elaborate on this and similar cases throughout the region. Part II: Case Studies Chapter 12 will examine the case of Iraq. The country is experiencing perhaps the most dramatic scenarios of governance in the region. This chapter will shed light on the unfolding political process and the struggle of Iraqis to forge a path toward democracy in a region determined to resist any political change within its boundaries. Key issues: Power-sharing, pluralism, federalism, ethnic and sectarian conflict, trust-building, corruption and political violence. Chapter 13 will examine the case of Iran. Thirty years after the Islamic Revolution, Iran is entering into a soul-searching phase in its history. The ongoing battle between the reformers and the hardliners is only a sign on the larger problem of governance. A majority of Iranians have no personal recollection of the problems that led to the Revolution. It is vitally important that the government changes its claims to legitimacy from being the force that toppled the Shah to being the provider of prosperity and development of the country and its young population. Key issues: Political reform, human rights, reconciliation with the West, allocation of resources and services. Chapter 14 will examine the case of Egypt. The country is facing an unknown future with President Mubarak reaching advanced age. The debate over his succession is dividing the country in a dramatic way. Egypt is also a country with depleted infrastructure and an ever-shrinking middle class. If the country falls into a violent cycle after the looming departure of Mubarak, the entire region could fall into the abyss. Key issues: Succession of Mubarak, economic performance, services, religious extremism (Muslim Brotherhood) and Nationalism. Chapter 15 will examine the case of Israel. While politically different from its neighbors, Israel is sinking fast into the same problems that plague the Middle East. The country suffers political corruption and many leadership crises. The government is trying to redefine the identity of the state, which is going to create a showdown with the fast-growing non-Jewish Israeli population, and there is the problem of the government’s inability to conclude peace with Israel’s neighbors. Key issues: Political reform, human rights, reconciliation with the West, allocation of resources and services. Chapter 16 will examine the case of Saudi Arabia. The country is perhaps the most authoritarian regime in the world. The lack of individual liberties and abuses of human rights are the main problems. The government’s treatment of its Shia subjects (approx. 12% of the population) as second-class residents is extremely troubling. The country does not have a meaningful public participation and the Royals who run the government have no accountability to anyone. Key issues: human rights, religious freedom, political reform, public participation. Chapter 17 will examine the case of Bahrain. This small country in the Persian Gulf is facing many challenges. Like Iraq before 2003, it is a country with a clear Shia majority ruled by a small Sunni minority. The Shia are excluded from the government (they were allowed to run for the parliament in the last election for the first time), the military and many other important arenas. The government uses the naturalization of Sunnis as a political tool to change the demographic balance in the country. Key issues: political reform, popular participation, naturalization, human rights. Chapter 18 will examine the case of Yemen. The current struggle over government performance and fairness toward the South has given rise to the calls for separation of the two parts of Yemen. Also, there is the issue of religious freedom, which cases the ongoing war with the Houthi faction that accuses the government of making alliance with the Saudi government and the Sunni extremists in the country to form an existential threat to Shi’ism. Yemen is also a country with many ungoverned spaces and the governance in the “governed” areas is abysmal. Key issues: political violence, human and religious rights, terrorism, tribalism and poverty. Chapter 19 will examine the case of Turkey and its impressive rise as a model for a strong Muslim nation which tries to reconcile Islam and democracy. Turkey’s longstanding problems with social rights, especially of its 12 million Kurds, have always been a formidable challenge to the image of the nation. However, the country’s bid to join the EU has forced many changes that inadvertently helped the government’s international standing. Chapter 20 will examine the case of Syria and the influence of the Arab nationalist ideology on keeping the country as one of the most oppressive regimes in the region. Also examined will be the affect of Syrian-Israeli conflict on the country’s governance. Chapter 21 examines the case of Lebanon. This country which witnessed more governance challenges than any other in the region makes a very interesting case study. The country’s sectarian politics and the client-patron relations and loyalties among the various Muslim and Christian elements of
society have undermined the country’s potential to become a fully democratic state. Chapter 22 will focus on the case of Sudan. This country has been in the center of world attention because of the internal conflict and the accusations of serious violations of human rights and the rise of separatist movements that receive much foreign sympathy and support. The country has missed many opportunities to attain social and political reconciliation, but it should not be considered a lost cause. There is a lot of potential in the country, especially when we consider the vibrant politics of government and opposition. Chapter 23 will examine the case of Jordan and the role of the uniqueness of the regime in creating relative social and political stability. Unlike the most of the governments in the region, the Jordanian Monarchy keeps the government as a convenient buffer between the Royals and the people. When popular sentiments turn very negative, the King, acting as the good cop, dismisses the government and orders the formation of a new one. Also, Jordan has achieved some good success in absorbing the Islamist groups into the political system, but not without challenges. The chapter will also focus on the Palestinian factor - Palestinians make more than half of the Jordanian population. Chapters 24, 25 & 26 will examine the Maghreb states (Morocco, Algeria and Tunisia). These states face many challenges in their governance: separatism, terrorism and the government oppressive history in Morocco; the Islamism challenge, internal war in the tribal areas and ethnic conflict in Algeria; and the stifling of personal freedom and liberties in Tunisia in the name of secularism and the war on extremism are all challenges that need to be highlighted in a chapter about each country. Chapter 27 will focus on governance in Libya. Having ruled the country for forty-seven years, the Libyan president is the dean of Middle Eastern dictators. He has taken his country though all kinds of political adventures. The rule through popular committees is a unique system that gives Col. Mu'ammar Qadhafi the opportunity to oppress through popular participation and acquiescence. Chapter 28 will focus on the governance in the United Arab Emirates. This confederation of seven emirates has witnessed some excellent success in the economic and infrastructural development, especially in Dubai, which competes with the richest cities in the world, thanks to the energy and vision of its Emir, Muhammad b. Rashid. While it is generally considered much better than its fellow Gulf States, the UAE has its own challenges, especially in light of the absence of unified system of governance, because each emirate has the autonomy to shape its internal affairs. Chapter 29 will examine the governance and, in certain cases, lack thereof in the countries that form the Horn of Africa, i.e. Somalia, Eritrea and Djibouti. These countries face some tremendous challenges in the areas of refugees, resources, stability and ethnic & conflict. The failure of these states, as seen in the case of Somalia, can make the problems of security in the whole region much worse than it is now. Famine and anarchy have already led to wars, piracy and the flood of refugees, not to say much about the humanitarian catastrophes in the region. This chapter will highlight the problems of governance in these often forgotten countries. Chapter 30 will be a conclusion and final remarks on the general framework of the regional governance and the way forward. This book is aimed at a wide variety of audience. Policy makers, policy analysts, as well as journalists will benefit from the history and analysis that will be presented in the book. Also, academics will find in the book important materials for research and class work. Professors teaching courses on US Foreign policy, Middle East, International Relations, Comparative Politics and many related fields will find the book a very suitable choice for their students to read. Given the media and general public’s interest in the Middle East and the Middle East, the book will also appeal to a wide range of educated readers in the United States, the United Kingdom and many other countries world-wide.
Committee Serial No. 2. Considers amendment to Sherman Antitrust Act enforcement provisions on seizure of property.

Originally published in 1960, this analysis of all of Locke’s publications quickly became established as the standard edition of the Treatises as well as a work of political theory in its own right.

Sethe, an escaped slave living in post-Civil War Ohio with her daughter and mother-in-law, is haunted persistently by the ghost of the dead baby girl whom she sacrificed, in a new edition of the Nobel Laureate’s Pulitzer Prize-winning novel. Reader’s Guide available. Reprint. 60,000 first printing.

This publication may be viewed or downloaded from the ADA website (www.ADA.gov).

1984 is George Orwell’s terrifying vision of a totalitarian future in which everything and everyone is slave to a tyrannical regime lead by The Party. Winston Smith works for the Ministry of Truth in London, chief city of Airstrip One. Big Brother stares out from every poster, the Thought Police uncover every act of betrayal. When Winston finds love with Julia, he discovers that life does not have to be dull and deadening, and awakens to new possibilities. Despite the police helicopters that hover and circle overhead, Winston and Julia begin to question the Party; they are drawn towards conspiracy. Yet Big Brother will not tolerate dissent - even in the mind. For those with original thoughts they invented Room 101. . . Other well known utopias and distopias: Plato - The Republic, Thomas More - Utopia, Tommaso Campanella - The City of the Sun, Frances Bacon - The New Atlantis, Edward Bellamy - Looking Backward, 2000 to 1887, Jack London - The Iron Heel, Evgeny Zamiatin - We, George Orwell - Nineteen Eighty-Four, Aldous Leonard Huxley - Brave New World

This prize-winning novel of a fugitive priest in Mexico is quite simply “Graham Greene’s masterpiece” (John Updike, The New York Review of Books). In the Mexican state of Tabasco in the 1930s, all vestiges of Catholicism are being outlawed by the government. As churches are razed, icons are banned, and the price of devotion is execution, an unnamed member of the clergy flees. He’s known only as the “whisky priest.” Beset by heretical vices, guilt, and an immoral past, he’s torn between self-destruction and self-preservation. Too modest to be a martyr, too stubborn to follow the law, and too craven to take a bullet, he now travels as one of the hunted—attending, in secret, to the spiritual needs of the faithful. When a peasant begs him to return to Tabasco to hear the confessions of a dying man, the whisky priest knows it’s a trap. But it’s also his duty—and possibly his salvation. Named by Time magazine as one of the hundred best English-language novels written since 1923, The Power and the Glory is “a violent, raw” work on “suffering, strained faith, and ultimate redemption” (The Atlantic).

This convenient Portable Version of Edwards/Wattenberg/Lineberry,Government in America: People, Politics, and Policy features all the content of the original comprehensive text split into four lightweight, paperbacks—accompanied by new practice tests at the back of each volume. Framing its content within a resonant “politics matters” theme and emphasizing public policy throughout, Government in America illustrates the impact that government has on the daily lives of each and every American, motivating students to become active participants in all aspects of our political system, and helping overcome the biggest challenge instructors face in this course -- student apathy toward government.

Living in a “perfect” world without social ills, a boy approaches the time when he will receive a life assignment from the Elders, but his selection leads him to a mysterious man known as the Giver, who reveals the dark secrets behind the utopian facade.

This is the most authoritative text for state and local politics. State and Local Politics: Government by the People continually sets the standards for other state and local politics texts by anticipating instructors’ and students’ needs. Known for its esteemed author team who treat each new edition as a fresh challenge, State and Local Politics: Government by the People is the perfect text for the educator who wants students to understand how America’s state and local political systems work.
#1 NEW YORK TIMES BESTSELLER • NOW A MAJOR MOTION PICTURE • Look for special features inside. Join the Random House Reader’s Circle for author chats and more. In boyhood, Louis Zamperini was an incorrigible delinquent. As a teenager, he channeled his defiance into running, discovering a prodigious talent that had carried him to the Berlin Olympics. But when World War II began, the athlete became an airman, embarking on a journey that led to a doomed flight on a May afternoon in 1943. When his Army Air Forces bomber crashed into the Pacific Ocean, against all odds, Zamperini survived, adrift on a foundering life raft. Ahead of Zamperini lay thousands of miles of open ocean, leaping sharks, thirst and starvation, enemy aircraft, and, beyond, a trial even greater. Driven to the limits of endurance, Zamperini would answer desperation with ingenuity; suffering with hope, resolve, and humor; brutality with rebellion. His fate, whether triumph or tragedy, would be suspended on the fraying wire of his will. Appearing in paperback for the first time—with twenty arresting new photos and an extensive Q&A with the author—Unbroken is an unforgettable testament to the resilience of the human mind, body, and spirit, brought vividly to life by Seabiscuit author Laura Hillenbrand. Hailed as the top nonfiction book of the year by Time magazine • Winner of the Los Angeles Times Book Prize for biography and the Indies Choice Adult Nonfiction Book of the Year award “Extraordinarily moving . . . a powerfully drawn survival epic.”—The Wall Street Journal “[A] one-in-a-billion story . . designed to wrench from self-respecting critics all the blurby adjectives we normally try to avoid: It is amazing, unforgettable, gripping, harrowing, chilling, and inspiring.”—New York “Staggering . . . mesmerizing . . . Hillenbrand’s writing is so ferociously cinematic, the events she describes so incredible, you don’t dare take your eyes off the page.”—People “A meticulous, soaring and beautifully written account of an extraordinary life.”—The Washington Post “Ambitious and powerful . . . a startling narrative and an inspirational book.”—The New York Times Book Review “Magnificent . . . incredible . . . [Hillenbrand] has crafted another masterful blend of sports, history and overcoming terrific odds; this is biography taken to the nth degree, a chronicle of a remarkable life lived through extraordinary times.”—The Dallas Morning News “An astonishing testament to the superhuman power of tenacity.”—Entertainment Weekly “A tale of triumph and redemption . . astonishingly detailed.”—O: The Oprah Magazine “[A] masterfully told true story . . nothing less than a marvel.”—Washingtonian “[Hillenbrand tells this] story with cool elegance but at a thrilling sprinter’s pace.”—Time “Hillenbrand [is] one of our best writers of narrative history. You don’t have to be a sports fan or a war-history buff to devour this book—you just have to love great storytelling.”—Rebecca Skloot, author of The Immortal Life of Henrietta Lacks

With an emphasis on elections and their importance in the American political system, this groundbreaking offers a stimulating, analytical approach to American government and a unique perspective on contemporary politics. Noted scholars and teachers all, the authors propose in their text that politicians today are perpetually engaged in the election process—a “permanent campaign”—which has profoundly affected how our government functions today. The proliferation of public opinion polls, the growing influence of the Internet, the ubiquitous nature of the news media, and the increasingly important role of interest groups—all demonstrate that America is moving toward a more popular democracy and have blurred the lines between politicians campaigning and governing. The sixth edition of this prestigious text will have been brought completely up-to-date through the end of the George W. Bush administration and 2008 Presidential Election, by its publication.

The Federal Aviation Administration's Airplane Flying Handbook provides pilots, student pilots, aviation instructors, and aviation specialists with information on every topic needed to qualify for and excel in the field of aviation. Topics covered include: ground operations, cockpit management, the four fundamentals of flying, integrated flight control, slow flights, stalls, spins, takeoff, ground reference maneuvers, night operations, and much more. The Airplane Flying Handbook is a great study guide for current pilots and for potential pilots who are interested in applying for their first license. It is also the perfect gift for any aircraft or aeronautical buff.
