Temples of South India
Donors, Devotees, and Daughters of God
This unique book presents a broad multi-disciplinary examination of early temple architecture in Asia, written by two experts in digital reconstruction and the history and theory of Asian architecture. The authors examine the archetypes of Early Brahmanic, Hindu and Buddhist temple architecture from their origins in north western India to their subsequent spread and adaptation eastwards into Southeast Asia. While the epic monuments of Asia are well known, much less is known about the connections between their building traditions, especially the common themes and mutual influences in the early architecture of Java, Cambodia and Champa. While others have made significant historiographic connections between these temple building traditions, this book unravels, for the first time, the specifically compositional and architectural linkages along the trading routes of South and Southeast Asia. Through digital reconstruction and recovery of three dimensional temple forms, the authors have developed a digital dataset of early Indian antecedents, tested new technologies for the acquisition of built heritage and developed new methods for comparative analysis of built form geometry. Overall the book...

presents a novel approach to the study of heritage and representation within the framework of emerging digital techniques and methods.

**Rock-cut Temples of South India**

This book presents the insights, philosophic symbolism and significance involved in the architecture of Hindu temples which are meticulously presented through texts, sketches, illustrations and figures. The book explores the origin and evolution of temples and the evolution of different architectural styles of the temples in northern and southern parts of India in different periods of history. The author, G. Venkataramana Reddy, a renowned architect, has also analysed the architectural symbolism of modern religious movements, including the Ramakrishna Math and Mission. The book will be of great value to the connoisseurs of Indian art and architecture and also to the general public interested in acquiring a detailed outline about the symbolism and architectural heritage of the Hindu temples.

**Early South Indian Temple Architecture**

**Tourist Guide to South India**

Drawing on art historical, epigraphical, and textual evidence, this book is the first full-scale reconstruction of medieval Jain activities at Ellora. It not only highlights the understudied Jain caves, but examines them in concert with Ellora’s Hindu and Buddhist monuments.

**RHYTHMS IN STONE, The Temples of South India**

To scholars in the field, the need for an up-to-date overview of the art of South Asia has been apparent for decades. Although many regional and dynastic genres of Indic art are fairly well understood, the broad, overall representation of India’s centuries of splendor has been lacking. The Art of Ancient India is the result of the author’s aim to provide such a synthesis. Noted expert Sherman E. Lee has commented: “Not since Coomaraswamy’s History of Indian and Indonesian Art (1927) has there been a survey of such completeness.” Indeed, this work restudies and reevaluates every frontier of ancient Indic art— from its prehistoric roots up to the period of Muslim rule, from the Himalayan north to the tropical south, and from the earliest extant writing through the most modern scholarship on the subject. This dynamic survey—generously complemented with 775 illustrations, including 48 in full color and numerous architectural ground plans, and detailed maps and fine drawings, and further enhanced by its guide to Sanskrit, copious notes, extensive bibliography, and glossary of South Asian art terms—is the most comprehensive and most fully illustrated study of South Asian art available. The works and monuments included in this volume have been selected not only for their artistic merit but also in order to both provide general coverage and include transitional works that furnish the key to an all encompassing view of the art. An outstanding portrayal of ancient India’s highest intellectual and technical achievements, this volume is written for many audiences: scholars, for whom it provides an up-to-date background against which to examine their own areas of study; teachers and students of college level, for whom it supplies a complete summary of and a resource for their own deeper investigations into Indic art; and curious readers, for whom it gives a broad-based introduction to this fascinating area of world art.

**Temples of South India**

**The Thief Who Stole My Heart**

A Largely Rewritten Version Of A Classic History Of Early India Concerned Not Only With The Past But Also With The Interaction Of The Past And The Present. Romila Thapar’s Penguin History Of Early India Brings To Life Many Centuries Of The Indian Past. Dynastic History Provides A Chronological Frame But The Essential Trut Of The Book Is The Explanation Of The Changes In Society And Economy. The Mutation Of Religious Beliefs And Practices, The Exploration Of Areas Of Knowledge In Which India Excelled, Its Creative Literature, Are All Woven Into A Historical Context. In T his Version, The Opening Chapters Explain How The Interpretations Of Early Indian History Have Changed. Further, Although The Diversity Of Sources And Their Readings Are Well Known, Nevertheless, This Narrative Provides Fresh Readings And Raises New Questions. Romila Thapar Gives A Vivid And Nuanced Picture Of The Rich Mosaic Of Varied Landscapes, Languages, Kingdoms And Beliefs, And The Interaction Between These That Went Into The Making Of A Remarkable Civilization.

**Hinduism and the Religious Arts**

**The Temple Architecture of India**
This study investigates how the teachings of religious leaders and the movements they promulgated influenced the plans, arrangements, and iconography of temples built by the Hoysala rulers between the twelfth and thirteenth centuries.

Encyclopaedia of Indian Temple Architecture

Analyzing the ways in which ideas of heroic discourse and the socio-religious and political needs of the period moulded iconography, this book explores the evolution of the iconography of the early mediaeval Hindu temples of the Indian peninsula, over the course of the sixth-twelfth centuries C.E. In order to study the socio-religious and political atmosphere in which the early mediaeval temple iconography grew and developed its specific forms, the author makes use of the inscriptions, archaeological and the literary materials ranging from the fourth centuries B.C.E. to the thirteenth century C.E., as these give an idea of the continuities and discontinuities in the ideas of heroic and political discourses which lie at the back of the visual art forms that they created. Of particular interest are the royal charters, issued in Sanskrit and Tamil, the religious narratives from the Sanskrit epics and the Puranas, iconographic canons that form a part of the religious texts known as the Agamas, written in Sanskrit, the court literature of the early mediaeval period and the early historical Sangam Tamil literature, apart from the archaeological material from the Indian peninsula. The author focuses particularly on exploring the ideas of power current in the society that created the narrative iconography of the period and the region studied.

Rediscovering the Hindu Temple

Through lucid visual analysis, accompanied by drawings, this book will allow readers to appreciate the concepts underlying designs that at first sight often seem bewilderingly intricate. The book will be divided into six parts that cover the history and development of the design and architecture of Indian temples.

Indian Temple Architecture

The essays in this collection explore ideas about women and their positions in Indian society from the earliest history to the present day. It is designed to provide primary material from literary, historical and sociological sources and to guide critical exploration of specific issues.

Kaladarśana

Temples of South India

The Penguin History of Early India

"Imagining Architects explores the nature of visual inventions in the religious architecture of India using an analytical framework that gives makers of religious monuments a visibility commonly denied to them in the historiography of Indian art and architecture. The exploration is based on a series of unusual formal experiments documented in a group of stone temples built in the eleventh century in the Karnataka region of southern India. The author shows (in these inscriptions) a deliberate search for a new architectural principle, using textual evidence and inscriptions referring to architects. The author also demonstrates a self-conscious modernity of Karnataka’s makers, who negotiated architectural traditions and religious ideas to radically change a previous architectural norm dominating the region."--BOOK JACKET.

Hindu Art

The first book to put the sacred and sensuous bronze statues from India’s Chola dynasty in social context From the ninth through the thirteenth century, the Chola dynasty of southern India produced thousands of statues of Hindu deities, whose physical perfection was meant to reflect spiritual beauty and divine transcendence. During festivals, these bronze sculptures—including Shiva, referred to in a saintly vision as "the thief who stole my heart"—were adorned with jewels and flowers and paraded through towns as active participants in Chola worship. In this richly illustrated book, leading art historian Vidya Dehejia introduces the bronzes within the full context of Chola history, culture, and religion. In doing so, she brings the bronzes and Chola society to life before our very eyes. Dehejia presents the bronzes as material objects that interacted in meaningful ways with the people and practices of their era. Describing the role of the statues in everyday activities, she reveals not only the importance of the bronzes for the empire, but also little-known facets of Chola life. She considers the source of the copper and jewels used for the deities, proposing that the need for such resources may have influenced the
Digital Archetypes

Faces of the Feminine in Ancient, Medieval, and Modern India

This volume examines the multifarious dimensions that constitute the workings of the Hindu temple as an architectural and urban built form. Eleven chapters reflect on Hindu temples from multiple standpoints - tracing their elusive evolution from wayside shrines as well as canonization into classical objects; questioning the role of treatises containing their building rules; analyzing their prescribed proportions and orders; examining their presence in, and as, larger sacred habitats and ritua

Power, Presence and Space

This new book represents a complete rewriting by the author of her A History of India, vol. 1. Includes bibliographical references (p. 542-544) and index.

The Courts of Pre-Colonial South India

Space, Time, Place

From the linga of Shiva to ritual lamps, from a Vishnu temple to a heap of stones streaked with sacred vermilion, from illustrations of the epic adventures of Rama to a terracotta goddess figurine, the art Hinduism has inspired over the centuries is as rich and various as the religion itself - and, for most Westerners, as unknown. Hindu Art offers a key to this mystery. A splendid, richly illustrated introduction, the book opens to readers the manifold glories of the religious art of the Indian subcontinent. The narratives that Hindu artists illustrate, the gods they depict, and the forms they observe are the products of thousands of years of tradition and development. In a survey that stretches back to prehistory, T. Richard Blurton discusses religious, cultural and historical influences that figure in Hindu art, as well as those that Hinduism shares with Buddhism and Jainism. Tracing the development of Hindu art, he shows how it has come to embrace the widely varying styles of regions from Nepal to Afghanistan, from Sri Lanka to Bangladesh. Against this historical background, Blurton considers the use of images from the three major cults of Hinduism - the worship of Shiva, Vishnu and the Great Goddess - in painting, sculpture and temple architecture. As fascinating as it is informative, Hindu Art offers invaluable insight into one of the world's great and ancient cultures. It will prove an indispensable resource for anyone with an interest in the art of India.

Imagining Architects

My First, Second, Third, Fourth and Fifth Books of Social Studies- a complete set of 5 books. The Books are well Informative and entirely based on NCERT/CBSE syllabus.

A History of Ancient and Early Medieval India

This unique book presents a broad multi-disciplinary examination of early temple architecture in Asia, written by two experts in digital reconstruction and the history and theory of Asian architecture. The authors examine the archetypes of Early Brahmanic, Hindu and Buddhist temple architecture from their origins in north western India to their subsequent spread and adaptation eastwards into Southeast Asia. While the epic monuments of Asia are well known, much less is known about the connections between their building traditions, especially the common themes and mutual influences in the early architecture of Java, Cambodia and Champa. While others have made significant historiographic connections between these temple building traditions, this book unravels, for the first time, the specifically compositional and architectural linkages along the trading routes of South and Southeast Asia. Through digital reconstruction and recovery of three dimensional temple forms, the authors have developed a digital dataset of early Indian antecedents, tested new technologies for the acquisition of built heritage and developed new methods for comparative analysis of built form geometry. Overall the book presents a novel approach to the study of heritage and representation within the framework of emerging digital techniques and methods.
Where To Download Early South Indian Temple Architecture Study Of Tiruvalisvaram Inscriptions

The roots between the Hindu religion and the wider culture are deep and uniquely complex. No study of either ancient or contemporary Indian culture can be undertaken without a clear understanding of Hindu visual arts and their sources in religious belief and practice. Defining what is meant by religion - no such term exists in Sanskrit - and what is understood by Hindu ideals of beauty, Heather Elgood provides the best synthesis and critical study of recent scholarship on the topic. In addition, this book offers critical background information for anyone interested in the social and anthropological roots of artistic creativity, as well as the rites, practices and beliefs of the hundreds of millions of Hindus in the world today.

The Art of Ancient India

Basic Approach Developed as a comprehensive introductory work for scholars and students of ancient and early medieval Indian history, this book provides the most exhaustive overview of the subject. Dividing the vast historical expanse from the stone age to the 12th century into broad chronological units, it constructs profiles of various geographical regions of the subcontinent, weaving together and analysing an unparalleled range of literary and archaeological evidence. Dealing with prehistory and protohistory of the subcontinent in considerable detail, the narrative of the historical period breaks away from conventional text-based history writing. Providing a window into the world primary sources, it incorporates a large volume of archaeological data, along with literary, epigraphic, and numismatic evidence. Revealing the ways in which our past is constructed, it explains fundamental concepts, and illuminates contemporary debates, discoveries, and research. Situating prevailing historical debates in their contexts, Ancient and Early Medieval India presents balanced assessments, encouraging readers to independently evaluate theories, evidence, and arguments. Beautifully illustrated with over four hundred photographs, maps, and figures, Ancient and Early Medieval India helps visualize and understand the extraordinarily rich and varied remains of the ancient past of Indian subcontinent. It offers a scholarly and nuanced yet lucid account of India's early past, and will surely transform the discovery of this past into an exciting experience. She taught history at St. Stephen's College, Delhi, from 1981 until 2004, after which she joined the faculty of the Department of History at the University of Delhi. Professor Singh's wide range of research interests and expertise include the analysis of ancient and early medieval inscriptions; social and economic history; religious institutions and patronage; history of archaeology; and modern history of ancient monuments. Her research papers have been published in various national and international journals. Her published books include: Kings, Brahmanas, and Temples in Orissa: An Epigraphic Study (AD 300 1147) (1994); Ancient Delhi (1999; 2nd edn., 2006); a book for children, Mysteries of the Past: Archaeological Sites in India (2002); The Discovery of Ancient India: Early Archaeologists and the Beginnings of Archaeology (2004); and Delhi: Ancient History (edited, 2006).

Thirty years' research and first-hand knowledge of the area have enabled the author to trace the cultural contacts which have contributed to the rich mosaic of sculpture, temples, mosques, and painting that have gone towards the creation of one of the great civilizations of the world.

The Art and Architecture of the Indian Subcontinent

An Introduction to South Indian Temple Architecture and Sculpture

Study of inscriptions in the temple complex of Tiruvalisvaram, Tirunelveli District, Tamil Nadu; includes inscriptions in Tamil with English translation.

Inquisitive Social Sciences For Class -6

This book investigates how the material culture of South Indian courts was perceived by those who lived there in the pre-colonial period. Howes peels away the standard categories used to study Indian palace space, such as public/private and male/female, and replaces them with indigenous descriptions of space found in court poetry, vastu shastra and painted representations of courtly life. Set against the historical background of the events which led to the formation of the Rammad Kingdom, the Kingdom's material circumstances are examined, beginning with the innermost region of the palace and moving out to the Kingdom via the palace compound itself and the walled town which surrounded it. An important study for both art historians and South India specialists. The volume is richly illustrated in colour.

The Hindu Temple

Through the use of epigraphical evidence, Leslie C. Orr brings into focus the activities and identities of the temple women (devadasis) of medieval South India, and suggests new ways of understanding the character of the temple woman -- and of the role of women in Indian religion and society.
