Born Bad

Designed specifically for the classroom, this volume presents the accurate and definitive version of Sinners, accompanied by the tools necessary to study and teach this famous American sermon. With an introduction aimed at students and teachers and commentary that draws on fifty years of team editorial experience of Yale's Works of Jonathan Edwards, it provides both context and interpretation, and addresses the concerns and questions of a twenty-first century audience. The book contains questions for in-class discussion, a chronology of Edwards's life, and a glossary. In addition, curricular materials and video mini-presentations are available on a dedicated Web site. This casebook represents a innovative contribution to the art of teaching Edwards to a new generation of readers.

Sinners in the Hands of a Good God

This volume presents the complete texts of twenty-three sermons preached by Jonathan Edwards during the first years of his career. The sermons, which have never been printed before, document one of the least explored periods of this eminent theologian's life and thought. Fully annotated, they are accompanied by an editor's preface that combines new information with fresh readings of related texts, such as the Diary and Personal Narrative. The volume includes a general introduction that puts Edwards's thirty-five years of writing and preaching into a broad literary and historical context. Based on the study of his entire sermon corpus--including over seventy printed sermons and twelve hundred sermon manuscripts--as well as related notebooks, letters, and treatises, the introduction enables readers to understand the elaborate network of working papers through which Edwards evolved his thought, as well as the critical function of the sermon in testing and developing expression of that thought. The introduction also explores the literary context of Edwards's writing, especially relating to the theory and practice of homiletics.

**The Professional Teacher's Handbook**

Most pre-service education students are enthusiastic about the progressive, constructivist, and student-centered theory and practice advocated in many teacher education programs and by the National Council of Teachers of English. Yet in actual day-to-day practice, teachers often have trouble thinking of ways in which such student-centered and constructivist practices in literacy instruction can be implemented in classrooms which are increasingly driven by high stakes tests, increased accountability, and mandated and even 'teacher proof' scripted curricula. Teaching Authentic Language Arts in a Test-Driven Era provides a powerful and much-needed counterargument to the assumption that test-driven curricula preclude meaningful instruction and authentic student engagement within a Language Arts curriculum. Providing teachers with the theoretical stances and pedagogical tools to develop a Language Arts practice which can be personally rewarding as well as beneficial to students, Teaching Authentic Language Arts in a Test-Driven Era empowers teachers to be effective even within the confines of a testing- and accountability-driven curriculum.

Revivalist Sermons is a message of meditation based on the Bible and written by Edward McKendree Bounds (August 15, 1835 - August 24, 1913) prominently known as E.M. Bounds, was an American author, attorney, and member of the Methodist Episcopal Church South clergy. He is known for writing 11 books, nine of which focused on the subject of prayer. Only two of Bounds' books were published before he died. After his death, Rev. Claudius (Claude) Lysias Chilton, Jr., grandson of William Parish Chilton and admirer of Bounds, worked on preserving and preparing Bounds' collection of manuscripts for publication. By 1921, Homer W. Hodge completed additional editorial work. Edward McKendree Bounds was born on August 15, 1835, in Shelbyville, Missouri. He is the son of Thomas Jefferson and Hester A. (née Purnell) Bounds. In the preface to E.M. Bounds on Prayer, published by Hendrickson Christian Classics Series over 90 years after Bounds' death, it is surmised that young Edward was named after the evangelist, William McKendree, who planted churches in western Missouri and served as the fourth bishop of the Methodist Episcopal Church. He was the fifth child, in a family of three sons and three daughters.

Changing the Way We Teach: Writing and Resistance in the Training of Teaching Assistants draws on eighteen case studies to illustrate the critical
role writing plays in overcoming graduate student resistance to instruction, facilitating change, and developing professional identity. Sally Barr Ebest argues that teaching assistants in English must be actively engaged in the theory and practice underlying composition pedagogy in order to better understand how to alter the way they teach and why such change is necessary. In illustrating the potential for change when the paradigm shift in composition is applied to graduate education, Ebest considers recent discussions of composition pedagogy; post-secondary teaching theories; cognitive, social cognitive, and educational psychology; and issues of gender, voice, and writing. Stemming from research conducted over a five-year period, this volume explores how a cross-section of teaching assistants responded to pedagogy as students and how their acceptance of pedagogy affected their performance as instructors. Investigating reasons behind manifestations of resistance and necessary elements for overcoming it, Ebest finds that engagement in composition strategies—reflective writing, journaling, drafting, and active learning—and restoration of feelings of self-efficacy are the primary factors that facilitate change. Concerned with gender as it relates to personal construct, Changing the Way We Teach traces the influence of familial expectations and the effects of literacy experiences on students and draws correlations between feminist and composition pedagogy. Ebest asserts that the phenomena contributing to the development of a strong, unified voice in women—self-knowledge, empathy, positive role models, and mentors—should be essential elements of a constructivist graduate curriculum. To understand composition pedagogy and to convince students of its values, Ebest finds that educators must embrace it themselves and trace the effects through active research. By providing graduate students with pedagogical sites for research and reflection, faculty enable them to express their anger or fear, study its sources, and quite often write their way to a new understanding.

Changing the Way We Teach

America’s supposed moral decline from an imagined golden age, and the threat of divine punishment for the sin of straying from the path of righteousness, have been consistent themes in its political and religious rhetoric. In Prodigal Nation, Andrew Murphy investigates the jeremiad’s historical roots and probes the ways in which it continues to illuminate themes and tensions in American social and political life.

Jonathan Edwards's Sinners in the Hands of an Angry God

"Original sin is the Western world's creation story." According to the Christian doctrine of original sin, humans are born inherently bad, and only through God's grace can they achieve salvation. In this captivating and controversial book, acclaimed historian James Boyce explores how this centuries-old concept has shaped the Western view of human nature right up to the present. Boyce traces a history of original sin from Adam and Eve, St. Augustine, and Martin Luther to Adam Smith, Sigmund Freud, and Richard Dawkins, and explores how each has contributed to shaping our conception of original sin. Boyce argues that despite the marked decline in church attendance in recent years, religious ideas of morality still very much underpin our modern secular society, regardless of our often being unaware of their origins. If today the specific doctrine has all but disappeared (even from churches), what remains is the distinctive discontent of Western people—the feelings of guilt and inadequacy associated not with doing wrong, but with being wrong. In addition to offering an innovative history of Christianity, Boyce offers new insights in to the creation of the West. Born Bad is the sweeping story of a controversial idea and the remarkable influence it still wields.

Herein are all of the scriptural readings, aside from the Psalms, appointed to be read in church from the Divine Liturgy of Lazarus Saturday through Paschal Vespers. In addition to the readings, the Prokeimena and Alleluias sung before and after many of the readings were included. The readings from Holy Unction are also in this book, since many parishes serve this during Holy Week (especially on Holy Wednesday), and many who don't, serve it at some point later in Lent. This book is intended first for those who are unable to hear all of the readings for Holy Week, whether due to the inability to get to the services, the use of a language they don't understand, or, alas, readers whoumble. Also, it is to be hoped, it will be useful to those, Orthodox or otherwise, who wish to better understand the Orthodox Church's teachings on Christ's Passion and Resurrection, as seen in the readings which were selected to be read in the context of Holy Week. With a Foreword by His Beatitude, Metropolitan Jonah.

O Lord, Teach Me, and I Shall Know

Teaching History in an Uncivilized World is the latest book by National Teacher of the Year Philip Bigler. It is a fascinating chronicle of his 23-year odyssey as a high school history and humanities teacher. Widely recognized for his innovative and exciting methods, Bigler explains how as a novice teacher he discovered the power of using historical simulations to motivate students and to help them become active participants in their own learning. These inspiring lessons proved highly effective in teaching important curricular content as President Bill Clinton would later acknowledge: "Through these historic simulations, his students have learned lessons about democracy and the meaning of citizenship, lessons we want every American to know." Despite Bigler's success as a history teacher, he was laid off twice early in his career due to school budgetary crises. Growing frustrated and increasingly disillusioned, Bigler eventually quit teaching and during this three year hiatus, he received an advanced degree at the College of William and Mary and served as an Army historian at Arlington National Cemetery. It was while working at Arlington that Bigler discovered that he missed the daily excitement of teaching history as well as the interaction with his students. In 1985, he returned to the high school classroom a far wiser and better educator. At BCC and McLean High Schools, Bigler taught a variety of history courses and was actively involved in implementing the latest computer technology into his instruction. As the yearbook advisor at McLean, he aggressively upgraded the publication's limited computer resources and introduced the editors and staff to desktop publishing. Widely respected by both staff and students, Philip Bigler was twice selected by the McLean High School senior class as their “most influential teacher” and was chosen as the school’s Teacher of the Year in 1996. In order to pursue his avid interest in the potential of educational technology to improve student learning, Bigler transferred to Thomas Jefferson High School for Science and Technology in the fall of 1996. There he was selected as the Fairfax County and the Virginia Teacher of the Year. In 1998, Philip Bigler was named the National Teacher of the Year by President Bill Clinton who remarked, “We need more teachers like Philip Bigler...in every classroom in America today for it is they who can make our schools the best in the world.” As the National Teacher of the
Year, Bigler was granted a one year sabbatical and traveled extensively speaking to various educational groups and organizations about the importance of teaching. He persuasively argues that “Civilization begins anew with each child” and that “If we fail to teach and educate our young people, we are just one generation removed from barbarism.” Bigler advocates for a return of academic rigor to our nation’s classrooms and the need for strong content standards. Bigler has appeared as a featured guest on The Late Show with David Letterman; Nightline; and the History Channel. Teaching History in an Uncivilized World is an essential book for all of those interested in improving the quality of American education. It is highly readable and contains numerous useful appendices for history teachers. The book is supported by a regularly updated website where additional educational resources and lesson plans are available.

**Show Them Jesus**

Millions of church kids are growing up and deciding to leave the church. They listened attentively in Sunday school, made friends, and seemed committed. But one day, they quit. What happened? The Bible says we love God because he first loved us. So if we are not primarily teaching our kids about God’s love for us in Christ, we may miss our opportunity to capture their hearts. But what does it look like to teach a gospel-centered lesson? Show Them Jesus is an instruction manual for teachers of kids and teens written by a lay Bible teacher with 30 years’ experience. With a simple framework and lots of real-life examples, Klumpenhower’s book helps teachers to identify and communicate the heart of the gospel to each child in each lesson. Conventional wisdom says, “Make class more fun!” Or just, “Make it easier!” But Show Them Jesus challenges the culture of low-stakes, low-expectations teaching and invites teachers to do nothing less than teach and treasure the good news of Jesus in every lesson. Show Them Jesus’s how-to approach will complement and enrich existing lessons or teaching materials and is appropriate for teachers of children and teens in any setting.

**A Teacher of the Church**

This book will deepen your regard for the church’s task of didache, the act of teaching Christians. The chapters explore what the writers believe are several key biblical texts and themes for teaching, select doctrines of the church that inform teaching as a ministry, and features of teaching in the Lutheran tradition and its current practice. We authors address these matters with deep commitment to our shared Lutheran tradition, yet also with profound respect for what the Holy Spirit has done across the centuries in other orthodox traditions of the Great Church. Welcome to our conversation, a conversation the church has shared--though not without dispute--for centuries (from Chapter 1).

Pastor Brian Zahnd began "to question the theology of a wrathful God who delights in punishing sinners, and has started to explore the real nature of Jesus and His Father. The book isn’t only an interesting look at the context of some modern theological ideas; it’s also offers some profound insight into God’s love and eternal plan." —Relevant Magazine (Named one of the Top 10 Books of 2017) God is wrath? Or God is Love? In his famous sermon “Sinners in the Hands of an Angry God,” Puritan revivalist Jonathan Edwards shaped predominating American theology with a vision of God as angry, violent, and retributive. Three centuries later, Brian Zahnd was both mesmerized and terrified by Edwards’s wrathful God. Haunted by fear that crippled his relationship with God, Zahnd spent years praying for a divine experience of hell. What Zahnd experienced instead was the Father’s love—revealed perfectly through Jesus Christ—for all prodigal sons and daughters. In Sinners in the Hands of a Loving God, Zahnd asks important questions like: Is seeing God primarily as wrathful towards sinners true or biblical? Is fearing God a normal expected behavior? And where might the natural implications of this theological framework lead us? Thoughtfully wrestling with subjects like Old Testament genocide, the crucifixion of Jesus, eternal punishment in hell, and the final judgment in Revelation, Zahnd maintains that the summit of divine revelation for sinners is not God is wrath, but God is love.

The Confessions of St. Augustine

Edwards’ Life of David Brainerd is a rare, almost forgotten document depicting life in pre-Revolutionary America during the period when religious enthusiasm swept the colonial frontier. From 1743 to 1747 Brainerd had been a missionary to the Indians. Riding alone, thousands of miles on horseback, he kept a journal of daily events that he continued until the week before he died, at the age of twenty-nine, in Edwards’ house. Published in 1749, the Life of Brainerd became a spiritual classic in its own time. As the first popular biography to be published in America, it went through numerous editions and has been reprinted more frequently than has any other of Edwards’ works. But what has not until now been known...
is that Edwards made drastic alterations in the original text. He shaped the narrative events to fit his own needs, presenting Brainerd as an example of a man who by example and deed opposed the rationalist, Arminian stance. Because the Yale edition is the first to print that portion of Brainerd's manuscript that survives, set in parallel columns with Edwards' text, these alterations can readily be discerned. This edition of The Life of David Brainerd, the first complete, fully annotated edition ever to be compiled, includes related correspondence as well as an endpaper map of Brainerd's travels. The editor's introduction describes the place of Brainerd's diary in Edwards' life and thought, and provides ample historical background.

These are questions most believers and seekers have asked, and they are biblically answered by author David Clotfelter. Contrasting the theologies of Jonathan Edwards with George MacDonald, the author reconciles the difficult doctrines of divine judgement and predestination. The 47 essays in this volume, composed by historians and theologians from 15 nations, survey the background, context, content and impact of the thinking of Martin Luther. These authors explore the intellectual traditions which formed his thought, his hermeneutical framework, his teaching on specific topics of biblical doctrine, his social and ethical positions, the ways in which specific genre and interaction with others (both supporters and opponents) formed histheology, and its impact on subsequent centuries and several parts of the twenty-first world. Essays explore the dimensions and implications of Luther's way of thought within its historical context on the basis of original sources and debates among interpreters of his thinking and his influence on later generations.

The academic study of death rose to prominence during the 1960s. Courses on some aspect of death and dying can now be found at most institutions of higher learning. These courses tend to stress the psycho-social aspects of grief and bereavement, however, ignoring the religious elements inherent to the subject. This collection is the first to address the teaching of courses on death and dying from a religious-studies perspective.
perspective.

**Sinners in the Hands of an Angry God**

Jews have sometimes been reluctant to claim Jesus as one of their own; Christians have often been reluctant to acknowledge the degree to which Jesus’ message and mission were at home amidst, and shaped by, the Judaism(s) of the Second Temple Period. In *The Jewish Teachers of Jesus, James, and Jude* David deSilva introduces readers to the ancient Jewish writings known as the Apocrypha and Pseudepigrapha and examines their formative impact on the teachings and mission of Jesus and his half-brothers, James and Jude. Knowledge of this literature, deSilva argues, helps to bridge the perceived gap between Jesus and Judaism when Judaism is understood only in terms of the Hebrew Bible (or “Old Testament”), and not as a living, growing body of faith and practice. Where our understanding of early Judaism is limited to the religion reflected in the Hebrew Bible, Jesus will appear more as an outsider speaking “against” Judaism and introducing more that is novel. Where our understanding of early Judaism is also informed by the Apocrypha and Pseudepigrapha, we will see Jesus and his half-brothers speaking and interacting more fully within Judaism. By engaging critical issues in this comparative study, deSilva produces a portrait of Jesus that is fully at home in Roman Judea and Galilee, and perhaps an explanation for why these extra-biblical Jewish texts continued to be preserved in Christian circles.
