Children of the Blues

Winner of the 2018 Edgar Award for Best Novel One of CrimeReads's Best Novels of the Decade A "heartbreakingly resonant" (USA Today) thriller about the explosive intersection of love, race, and justice from the author of Heaven, My Home When it comes to law and order, East Texas plays by its own rules--a fact that Darren Mathews, a black Texas Ranger, knows all too well. Deeply ambivalent about growing up black in the lone star state, he was the first in his family to get as far away from Texas as he could. Until duty called him home. When his allegiance to his roots puts his job in jeopardy, he travels up Highway 59 to the small town of Lark, where two murders--a black lawyer from Chicago and a local white woman--have stirred up a hornet's nest of resentment. Darren must solve the crimes--and save himself in the process--before Lark's long-simmering racial fault lines erupt. From a writer and producer of the Emmy winning Fox TV show Empire, Bluebird, Bluebird is a rural noir suffused with the unique music, color, and nuance of East Texas. "In Bluebird, Bluebird Attica Locke has both mastered the thriller and exceeded it." --Ann Patchett

Griffin's Feather

London Foster has had it. Trying her best to hold it together in Chicago, she is battling both the effects of her mother's death and the betrayal of her ex-girlfriend. Opting to throw herself into work and the gym, she at first ignores an invitation from her largely absentee father to take some time off at his estate in Texas. He may be the Chairperson of Foster Oil & Gas, but it doesn't change the fact that he was never part of her life. Besides, she's up for a big promotion and sees it as the solution away from her one-way track into deep depression. In many ways, Natalie Silva is the complete opposite of London. Where London is pale, Natalie is sun-kissed. In that dark space deep down where London is filled with regrets and bitterness, Natalie radiates warm light. As a Texas native and sort-of Southern belle, Natalie is compassionate, kind and raised with a healthy dose of Southern hospitality. She's followed her passion for baking throughout her adult life and it's led her to being a co-owner of Mission Bakery - A popular bakery and food truck she manages with her lesbian aunts and the occasional help from her best friend's precocious daughter. After a years-old heartbreak, the one lesson she has taken through her life is to never fall for an outsider. You know the type - The mysterious, attractive out-of-towners who offer equal promise of passion and complications. London and Natalie are less than impressed with each other upon their first meeting. But fate and Texas have a very different and much more sensual plan for these two polar opposite women. In the sultry-hot summer heat, they will learn just as much about themselves and their lives as they will about each otherAnd it might just be everything they want.

career. Instead, it all came to a shocking and sudden end on August 27, 1990, when he was killed in a helicopter crash following a dynamic performance with Eric Clapton. Just 35 years old, he left behind a powerful musical legacy and an endless stream of What Ifs. In the ensuing 29 years, Vaughan’s legend and acclaim have only grown and he is now an undisputed international musical icon. Despite the cinematic scope of Vaughan’s life and death, there has never been a truly proper accounting of his story. Until now. Bluebird, Bluebird

Art can be a powerful avenue of resistance to oppressive governments. During the dictatorship of Augusto Pinochet in Chile, some of the country’s least powerful citizens—impoverished women living in Santiago’s shantytowns—spotlighted the government’s failings and use of violence by creating and selling arpilleras, appliquéd pictures in cloth that portrayed the unemployment, poverty, and repression that they endured, their work to make ends meet, and their varied forms of protest. Smuggled out of Chile by human rights organizations, the arpilleras raised international awareness of the Pinochet regime’s abuses while providing income for the arpillera makers and creating a network of solidarity between the people of Chile and sympathizers throughout the world. Using the Chilean arpilleras as a case study, this book explores how dissident art can be produced under dictatorship, when freedom of expression is absent and repression rife, and the consequences of its production for the resistance and for the artists. Taking a sociological approach based on interviews, participant observation, archival research, and analysis of a visual database, Jacqueline Adams examines the emergence of the arpilleras and then traces their journey from the workshops and homes in which they were made, to the human rights organizations that exported them, and on to sellers and buyers abroad, as well as in Chile. She then presents the perspectives of the arpillera makers and human rights organization staff, who discuss how the arpilleras strengthened the resistance and empowered the women who made them.

**The New Paramount Book of Blues**

"Ghost notes" is a musical term for sounds barely audible, a wisp lingering around the beat, yet somehow driving the groove. The Texas musicians profiled here, ranging from 1920s gospel performers to the first psychedelic band, are generally not well known, but the impact of their early contributions on popular music is unmistakable. This beautiful Tim Kerr-illustrated collection provides more background on the Texas from which these artists sprang, fully formed. Readers will learn about the black gay couple from Houston who inspired the creation of rock 'n' roll, as well as the true story of the origin of Western Swing. They will learn about "the first family of Texas music" and the birth of boogie-woogie, the dirt-poor singers and the ballad collectors who saved folk songs during the Depression, and the accordionista whose musical legacy was never contained on recordings but was passed on by his protégé. The pioneers of modern times include the Dallas rapper who became the wordsmith of gangsta rap, the sheriff's son from Dumas who produced the signature tunes of Frank Sinatra and Dean Martin, and the blind lounge singer Kenny Rogers called the greatest musician he's ever known.

**The Art of Classical Guitar**

Presents the art and life of the people of Texas.

**Inside Jazz (inside Bebop)**

Chenier, Clarence "Gatemouth" Brown, B.B. King, "T-Bone" Walker, Lowell Fulsom--these are just a few of the many Texas blues makers pictured and profiled in Alan Govenar's *Meeting the Blues*, a book that not only vividly documents the rise of Texas blues, but also gives it life through the words of the men and women who sing the lyrics and play the music. With more than 200 rare and new photographs, a selected discography of blues recordings, and oral histories from almost everyone involved with creating the Texas sound, *Meeting the Blues* is an unforgettable chronicle of one of America's richest and most exciting music scenes.

**Blues Rhythm Guitar**

Based on scores of interviews with the artist's relatives, friends, lovers, producers, accompanists, managers, and fans, this brilliant biography reveals a man of many layers and contradictions. Following the journey of a musician who left his family's poor cotton farm at age eight carrying only a guitar, the book chronicles his life on the open road playing blues music and doing odd jobs. It debunks the myths surrounding his meetings with Blind Lemon Jefferson and Texas Alexander, his time on a chain gang, his relationships with women, and his lifelong appetite for gambling and drinking. This volume also discusses his hard-to-read personality; whether playing for black audiences in Houston's Third Ward, for white crowds at the Matrix in San Francisco, or in the concert halls of Europe, Sam Hopkins was a musician who poured out his feelings in his songs and knew how to endear himself to his audience--yet it was hard to tell if he was truly sincere, and he appeared to trust no one. Finally, this book moves beyond exploring his personal life and details his entire musical career, from his first recording session in 1946--when he was dubbed Lightnin'--to his appearance on the national charts and his rediscovery by Mack McCormick and Sam Charters in 1959, when his popularity had begun to wane and a second career emerged, playing to white audiences rather than black ones. Overall, this narrative tells the story of an important blues musician who became immensely successful by singing with a searing emotive power about his country roots and the injustices that informed the civil rights era.

**Blind Lemon Jefferson**

In the clubs, ballrooms, and barbecue joints of neighborhoods such as Third Ward, Frenchtown, Sunnyside, and Double Bayou, Houston's African American community birthed a vibrant and unique slice of the blues. Ranging from the down-home sounds of Lightnin' Hopkins to the more refined orchestrations of the Duke-Peacock recording empire and beyond, Houston blues was and is the voice of a working-class community, an ongoing conversation about good times and hard times, smokin' Saturday nights and Blue Mondays. Since 1995, Roger Wood and James Fraher have been gathering the story of the blues in Houston. In this book, they draw on dozens of interviews with blues musicians, club owners, audience members, and music producers, as well as dramatic black-and-white photographs of performers and venues, to present a lovingly detailed portrait of the Houston blues scene, past and present. Going back to the early days with Lightnin' Hopkins, they follow the blues from the streets of Houston's Third and Fifth Wards to its impact on the wider American blues scene. Along the way, they remember the vigorous blues community that sprang up after World War II, mourn its

decline in the Civil Rights era, and celebrate the lively, if sometimes overlooked, blues culture that still calls Houston home. Wood and Fraher conclude the book with an unforgettable reunion of Houston blues legends that they held on January 3, 1998.

Austin City Limits

The rich, complex lives of African Americans in Texas were often neglected by the mainstream media, which historically seldom ventured into Houston's Fourth Ward, San Antonio's East Side, South Dallas, or the black neighborhoods in smaller cities. When Bill Minutaglio began writing for Texas newspapers in the 1970s, few large publications had more than a token number of African American journalists, and they barely acknowledged the things of lasting importance to the African American community. Though hardly the most likely reporter—as a white, Italian American transplant from New York City—for the black Texas beat, Minutaglio was drawn to the African American heritage, seeking its soul in churches, on front porches, at juke joints, and anywhere else that people would allow him into their lives. His nationally award-winning writing offered many Americans their first deeper understanding of Texas's singular, complicated African American history. This eclectic collection gathers the best of Minutaglio's writing about the soul of black Texas. He profiles individuals both unknown and famous, including blues legends Lightnin' Hopkins, Amos Milburn, Robert Shaw, and Dr. Hepcat. He looks at neglected, even intentionally hidden, communities. And he wades into the musical undercurrent that touches on African Americans' joys, longings, and frustrations, and the passing of generations. Minutaglio's stories offer an understanding of the sweeping evolution of music, race, and justice in Texas. Moved forward by the musical heartbeat of the blues and defined by the long shadow of racism, the stories measure how far Texas has come . . . or still has to go.

Art Against Dictatorship

Chopper Blues is the apex of a unique evolution: it grows from the script of a mixed media introduction performed live for a body of viscerally intense woodcuts, drawings and paintings first exhibited in East Texas at the Tyler Museum of Art and last honored at the Marine Corps Museum in San Diego, California. Musician, painter, printer, sculptor and maturing poet, Jones sustained the experience which made both these images and this text necessary during the three years he served the Marine Corps, almost all of it as Platoon Commander, Company C, 1st Battalion, 7th Marines, this enlistment culminating in his '65-'66 Vietnam duty tour and his combat decoration, the Silver Star. These poems and prose were originally written to accompany the "Vietnam Suite," 40, 38" x 50 inch multimedia works on paper and an accompanying performance piece entitled "Chopper Blues." However, this limited print edition has been expanded to include drawings from Jones' sketchbook from his time in country, Vietnam, 1965--1966, as well as images from the "Vietnam Suite" and woodcuts from a recent publication, The Bear Went Over the Mountain, co-written with a Vietnamese Artist from Hanoi, Dinh Viet Luc. Also included in this spectacular collection are never before published photographs of Jones's tour in Vietnam, photographs of villages and schools that vanished immediately after the camera's flash. Finally, included in this limited printing is a cd of the performance piece, featuring a reading of the poems and songs from the book with original and traditional music performed by the artist and friends.

Jimi Hendrix - Signature Licks

Every field has its "bossman"--the one who sets the style and makes the rules. In bluegrass and early country music the man was Bill Monroe. In the world of urban blues, the man was Muddy Waters. Using their own words and dozens of
remarkable photographs by David Gahr, Carl Fleischhauer and John Byrne Cooke, the author compares and contrasts the careers of these two bossmen. Both grew up in remote rural areas. Muddy Waters heard field hollers, church music, jubilee, shouts, string band music, and the raw sound of the delta blues; for Bill Monroe it was square dance music, hymns, old country ballads and the fiddling of his Uncle Pen Vandiver. Both brought their music to the big cities: Bill to Nashville, Muddy to Chicago. Musicians who passed through their bands went on to form bands of their own, giving rise to the worlds of Bluegrass and Chicago Blues. But this is more than a book about music; it is a book about black and white America. In microcosm, it is almost a history of this country; and it sets up striking comparisons that cut deep into our heritage and ways. In the words of Pete Seeger: "Anyone in the world wanting to understand American music could well start right here."

A fly-on-the-wall account of the smart and strange subcultures that make, trade, curate, collect, and hype contemporary art. The art market has been booming. Museum attendance is surging. More people than ever call themselves artists. Contemporary art has become a mass entertainment, a luxury good, a job description, and, for some, a kind of alternative religion. In a series of beautifully paced narratives, Sarah Thornton investigates the drama of a Christie's auction, the workings in Takashi Murakami's studios, the elite at the Basel Art Fair, the eccentricities of Artforum magazine, the competition behind an important art prize, life in a notorious art-school seminar, and the wonderland of the Venice Biennale. She reveals the new dynamics of creativity, taste, status, money, and the
search for meaning in life. A judicious and juicy account of the institutions that have the power to shape art history, based on hundreds of interviews with high-profile players, Thornton's entertaining ethnography will change the way you look at contemporary culture.

Guamazing Hand Drawn Art

From October 1959 until the mid-1970s, Paul Oliver and Mack McCormick collaborated on what they hoped to be a definitive history and analysis of the blues in Texas. Both were prominent scholars and researchers—Oliver had already established an impressive record of publications, and McCormick was building a sprawling collection of primary materials that included field recordings and interviews with blues musicians from all over Texas and the greater South. Despite being eagerly awaited by blues fans, folklorists, historians, and ethnomusicologists who knew about the Oliver-McCormick collaboration, the intended manuscript was never completed. In 1996, Alan Govenar, a respected writer, folklorist, photographer, and filmmaker, began a conversation with Oliver about the unfinished book on Texas blues. Subsequently, Oliver invited Govenar to assist him, and when Oliver became ill, Govenar enlisted folklorist and ethnomusicologist Kip Lornell to help him contextualize and document the existing manuscript for publication. The Blues Come to Texas: Paul Oliver and Mack McCormick’s Unfinished Book presents an unparalleled view into the minds and methods of two pioneering blues scholars.
